2024 CATALOGUE

ANIAN HAIR CARE

Since 1987, creating effective formulas that awaken emotions, inspired by nature.

We work to ensure that the aroma of our products generates sensations that add fragrance to the moments of your life, because we want to take care of you and your loved ones.

ANIAN

Good memories have a scent

We are a local brand, which was founded and continues to evolve in Spain, doing things with the same enthusiasm as the very first day, but with the experience of having been doing it for almost 40 years.

We are accessible, because we firmly believe that a good product costs what it should cost and no more.

We are quality, and we are so because of our natural origin. Our ingredients and attitude towards life are based on naturalness, a naturalness that makes us happy.

We are an instant that can become a forever. We are fragrance, scents that generate sensations, that awaken past memories and record the small moments in life that will be remembered.

What should a complete hair care routine include?

1. SHAMPOO

- The first step in the hair routine to cleanse the hair.
- It can be used daily.
- Apply to wet hair and massage into a lather.
- Rinse with plenty of water.
- Repeat the application if necessary.

2. CONDITIONER

- The second step in the routine for soft, silky and easy to style hair.
- It can be used daily, each time the hair is washed.
- Apply to wet hair after shampooing.
- Rinse with plenty of water.

3. MASK

- The third step to deeply nourish and moisturise.
- It can be used 1-3 times a week, depending on the specific needs of the hair.
- Apply to clean, wet hair and leave on for 2-3 minutes.
- Rinse with plenty of water.

4. FINISHING PRODUCTS

- Products to finish or finalise the routine are a fourth step, including: serum, no-rinse conditioner, gas-free hairspray, etc.
- Each product, all no-rinse, cares for the hair and improves its manageability in a different way. Apply to wet or dry hair and style as usual.
- The serum adds shine, moisturises and seals the ends. Add a few drops to the palm of the hand, rub and apply from middle to ends.
- Biphasic products soften, moisturise and facilitate hairstyling. Shake until the two phases have combined and spray.
- Styling products improve manageability and prolong hairstyle duration.
- Liquid keratin adds instant shine and repairs the hair fibre in the long term.
